

## Speed, Performance, Value - The Right Balance

- BMI-Body mass index
- Wheels to allow easy movement
- Enhanced Height rod as standard (measures up to 60-212 cm)
- Robust metal housing
- Anti-slip platform
- Large red LED display
- Colour coded, sealed keypad
- External calibration
- Hold function
- Full range tare
- AC Adapter
- Overload protection
- Rechargeable battery / mains adapter supplied as standard
- 2 weighing units (kg, lb)
- Precision load cell technology
- Simple user-friendly operation
- RS-232 interface
- Weighing
- Measuring height

## Technical Specifications

Maximum capacity	300kg
Readability	50g
Pan size	275x375mm

## General Specifications

Model	MDW 300L
Power supply	Internal re-chargeable 6V battery / 220 VAC through adapter
Calibration	External
Display	LCD
Housing	Metal, Indicator: ABS Plastic
Overall dimensions (wxdxh)	535x275x940mm
Net weight	13kg
Height range	60cm - 212cm
Division of measurement	0.1cm
